

BEETLE /iSCAN - *Check it out!*

Tower Line

Pay Tower 100

With the BEETLE /iSCAN Pay Tower 100 Wincor Nixdorf enlarges its self-check-out product portfolio by a self-service payment kiosk. The Pay Tower 100 is the latest self-service payment terminal offering full functionality - both cash and card payment.

Deriving from the BEETLE /iSCAN Tower Line the Pay Tower 100 excels in a considerably small footprint, which makes it an ideal solution for space constrained locations. In addition to its small footprint and ergonomic design the Pay Tower 100 is equipped with well established "best-in-class" components - most of them successfully proven in already existing BEETLE /iSCAN products.

The Pay Tower 100 offers a wide field of application within various self-checkout environments: it can either be combined with mobile scanning (PSA), attended scanning stations or self-scanning terminals.

All transactions - stored on the receipt of the according scan device - can be called up at the Pay Tower 100. The buyer only scans in the receipt, pays and leaves without any need for an assisting cashier.

As member of the Tower Line the Pay Tower 100 will be delivered with the well-established TPiSCAN software. TPiSCAN is extremely flexible and can easily be adapted into the Pay Tower 100. Being based on world- wide standards it allows trouble-free integration into existing POS applications and IT infrastructures.

The Pay Tower 100 can be driven under Windows or Linux – it is configurable in multi-purpose ways and can optionally be administrated by Remote Service.

The Pay Tower 100 allows the realisation of various check-out scenarios.

Check it out!

Pay Tower 100

TECHNICAL DATA

■ SYSTEM

- Standard BEETLE POS system with at least 2 Ghz clock speed
- Hard disk 40 GB / 80 GB
- 512 MB memory to 2 GB memory
- Celeron / P4

■ SCREEN

- 15" TFT LCD, capacitive touch screen
- 1024 x 768 pixels
- 250 cd/qm luminance

■ BARCODE SCANNER

- Omni-directional Scanner
- 1650 scans/sec
- scan pattern with 5 fields and 48 lines

■ CASH FACILITIES

- Note acceptor
 - Capacity note box:
 - up to 500 notes
- Currencies:
 - EURO / GBP / USD (capability of other currencies)
- Acceptance and control of up to 30 notes

■ COIN ACCEPTOR

- Note acceptor
 - ca. 3,5 liters of coin volume until „near full sensor“
- Currencies:
 - EURO / GBP / USD (capability of other currencies)
- Acceptance and control of 8 denominations

■ NOTE DISPENSER

- 3 distribution cassettes
- Capacity per cassette:
 - 2000 notes
- 1 reject / retract cassette
- each cassette adjustable to note dimensions
- Security Standard UL291 (business hour)

■ COIN DISPENSER

- Capacity hoppers (based on Euro currency):
 - 6 x hoppers - ca. 450 coins
 - Each hopper adjustable to coin size
- Unload by software

■ READERS

- Magnetic cards
- Hybrid cards
- Verification via PIN pad
- Optional:
 - via signature capture pad

■ ADDITIONAL PAYMENT OPTIONS

- Coupons with EAN code
- Deposit documents with EAN code

■ PRINTER

- Receipt Printer TP07 compact
- Capacity:
 - diameter = 120mm
- Paper width:
 - 80mm
- Print speed:
 - up to 150mm/sec
- 2 emulations (ESC/POSTM&GDI)
- Presenter
- Full graphic capable receipt printer

■ SOFTWARE

- Windows XP Embedded or Linux
- Standard interface to POS programs
- Intuitive graphical user interface with voice prompting

■ SERVICE

- Remote management support available

■ POWER SUPPLY

- 110-130V~ / 220-240V~, 50-60 Hz

■ CERTIFICATION

- CE
- CSA_{US}

■ DIMENSIONS

- H / W / D in cm 136 x 52 x 80

■ WEIGHT

- 250 kg
